## CLOTHING MUSEUM, ALGEMESI

A group of 10 women participate in a project with local and regional fund to restore the clothing collection (beginning of s. XX). More than 200 hand-made clothing pieces (cinema, parties,...) were restored.

Specially after 40's, it became really difficult for women to find a job. Thanks to the funds, women will get some incomes and develop a professional occupation. The workers are very motivated because of the relationship with the heritage.

## WHAT OFFERS?
